0

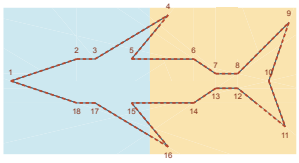

Prepare the rectangle

8 × 4 in rectangle · center = (0, 0)

1

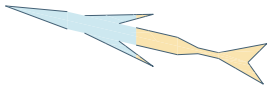

Draw the shark net

Join 1–18 in order · coordinates in written step

2

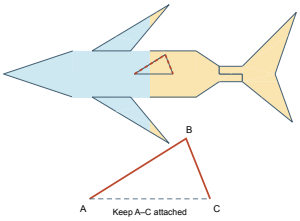

Cut out the connected net

Cut outer outline only · set offcuts aside

3

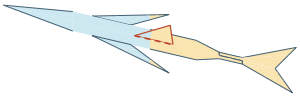

Release the dorsal tab

Two interior cuts · keep the 1 in base attached

4

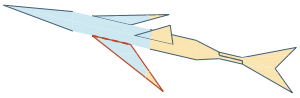

Raise the dorsal fin

Dorsal tab: 90° up · opening is intentional

5

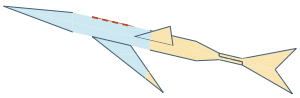

Lower the near pectoral fin

Near pectoral fin: 30° down

6

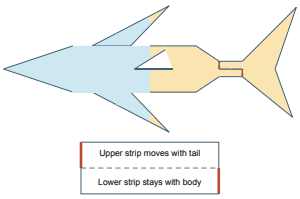

Lower the far pectoral fin

Far pectoral fin: 30° down

7

Release the tail-root edges

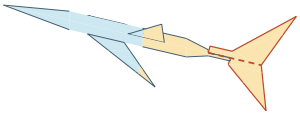

Dashed 0.6 in hinge: DO NOT CUT

Two 0.2 in slits · do not cut the long hinge

8

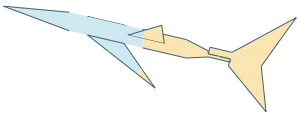

Stand the forked tail upright

Whole forked tail: 90° up about center line

9

Check the finished shark

Upright dorsal + vertical tail + paired fins
